GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black; Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural looks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. It is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence that can be given that it is not injurious. On the contrary, it improves the texture of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, (after the Hair is colored and dry) will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of a desirable color which they restore or exchange for a beautiful Auburn, Brown or Black, without any additional preparation or the slightest trouble. DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these, others of vegetable origin are combined, designed to render them more active and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound, and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony, and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on, and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process, and that has been less than a year in preparation.

The Compound is recommended for Scrofulas, Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers, and other abuses of the constitution, among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor become familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

Prepared only by Dr Stephen Cummings, and sold at wholesale and retail by Joshua Burgin & Co, No 143 Middle street, and Edward Mason, No 165 Middle street—only agents for Portland.

Sold in Bangor by G W LADD and JOSEPH S INGRAHAM.

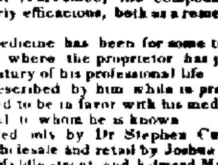
PRIAM OF TROY



AIR TIGHT COOKING STOVE,

IMPROVED FOR 1848.

Combination of the greatest improvements of the age—Four sizes.

THIS Stove recommends itself to the attention of Ladies and Gentlemen who are interested in combining Economy and Convenience with their Domestic Affairs. As all food passes the ordeal of some Cooking Apparatus to make it palatable or proper for use, it is very important that every family should possess the Best Apparatus for this purpose, and which at the same time shall consume the least amount of Fuel, or incur the least expense. The

PRIAM OF TROY IS THE STOVE

That has a very LARGE OVEN, probably as large as in any (equal size) Stove ever offered to the public, which is heated quickly and perfectly even by means of **Deep Hollow Grooves**, in the back and bottom of the Oven, exposing from three to Four hundred square inches more surface to the Oven than can be done by a plain surface. Consequently a very small amount of fuel being arranged in this Air Tight Stove, and applied to the Oven, renders it one of the *BEST BAKING OVENS* to be found in New England.

There is a Set of large Rims or Rings connected with the stove, so that our Farmers and all who wish to use large Brass or Iron Kettles, or any kind of old fashioned Ware, holding from one to six pails, can do it at their pleasure. The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance, and in fact is one of the best Cooking Stoves for the Kitchen now in use, as thousands who now have them will testify.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S
HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

OF SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which proof can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle, and then be far superior to any in use. It is put into the Bottle at its FULL STRENGTH and power without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness, KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from **Impure Blood!**

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill, CERTIFIES, astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so INCAPABLE of doing injury." What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails. She

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part, which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is, that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and stops it, then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter, or back up the disease, but this EXTIRPATES it wholly from the system—this saves the patient's life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superior ity. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability to cure ever Disease, Affection, or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame at his office,

No. 55 Union Street.

Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye; this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentary, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder. The dolor eau, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases if applied to in season.

The Great Remedy for Gonorrhœa

GLEET, Stricture and all analogous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years this Paste has never in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians for months and even years, but after taking the Paste for a few days the angry symptoms disappeared and the patients were discharged entirely cured.

If the unfortunate instead of drugging themselves with quack nostrums would purchase a box of the Arabian Paste we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on returning the empty box.

For sale only by the original inventor and sole proprietor, Dr PETER G DOUGLASS, at his Office No 55 Union street, Boston, at $5 per box, where he can be confidently consulted on every disease incident to the human frame, and the patient freely upon the most beneficial course of treatment that can possibly be adopted.

COMPOUND SYRUP OF

Sarsaparilla and Pipsissewa,

Prepared only by

ALBERT EMERSON,

DRUGGIST AND APOTHECARY,

Apothecaries' Hall, 4 Smith's Block, BANGOR.

THIS article is confidently recommended as a cure for all diseases arising from an impure state of the Blood, such as *Scrofula, Salt Rheum, Syphilitic and Mercurial Diseases, Ulcerous Sores, Pimples and Diseases of the Skin generally.* This Syrup is highly approved by the Medical Faculty and is recommended as an internal remedy only for the purpose of an alterative, or as some would express the same thing, to purify and renovate the system in all long standing diseases where the fluids of the body have become vitiated.

Pipsissewa (the *Chimaphila Umbellata* or *Pyrola Umbellata* as it is variously called by Botanists) was first employed medicinally by the Aborigines of America, and was first introduced to the notice of the medical profession in 1803 by the late eminent Physician Dr S L Mitchell of New York. Dr Pereira of London says that it is an alterative in Scrofula, and in other chronic diseases—"it is generally supposed to possess almost specific powers," and Dr Paris of London speaks of a practitioner who relies wholly for success upon Pipsissewa, "by which he is enabled to cure Scrofula in its worst forms."

When taken into the stomach, it acts as a tonic, producing an agreeable sensation and assisting the appetite and digestive process. It promotes the action of the secreting organs, more especially the Kidneys, over which indeed, it appears to exercise a specific influence. In order to insure essentially the benefit derived from Sarsaparilla, we have most admirably combined the Pipsissewa with it, so that its tonic and diuretic qualities will materially promote the good effects of Sarsaparilla.

State of Maine.

HEAD QUARTERS,
Augusta, Sept 4 1848.

THE apportionment of companies to the several divisions of the militia of Maine, according to the provisions of the law now in force, gives to the

It will be seen by this law that divisions are allowed the term of two years to raise their quota of volunteers, at the expiration of which, on failing to furnish the number of companies to which they are entitled, other divisions will be authorized to raise them on petitioning to the commander-in chief. It is hoped that the martial spirit of our citizens has not become entirely extinct by the long suspension of active military service, but that there still exists in our State those military and patriotic impulses that will ensure a willing and prompt return to duty, and a vigorous organization in each division of the militia of Maine of all the force allowed by law.

Independent companies already organized are invited to join the volunteer corps of our State, and whenever they indicate to this department their wish and determination to comply with the provisions of law they will be furnished with arms by the State.

Our citizens generally are also invited to organize new companies with becoming promptitude, petitions for which may be forwarded to the office of the Adjutant General.

The State has now on hand a variety of muskets and rifles, and in a few weeks will be in possession of nearly one thousand percussion rifles, of the latest and most approved model, which will be subject to the order of companies first making application.

By the Commander-in-Chief,
ALFRED REDINGTON.

☞ The Platform published a Locofoco and Van Buren party account of the proceedings of a Whig meeting in Ohio, at which according to these representations, the people adopted a set of resolutions pouring out the vials of wrath upon the heads of the opposing parties undertaking to vote down the resolutions of the meeting. We know nothing of the truth of the matter. But whether the statements made by the partizan papers referred to by the Platform be true or false, it is much apparent, that the Platform resolutions is the matter would be small gusts. If he does not approve, he certainly utters no word of condemnation at the course of the opposition, but leaves the inference fairly to be drawn that he thinks it a fair mode of political operation.

Would he extend to the Platform which similar treatment of his party at one of their public meetings in the city? Should the Whigs here rush into one of the same kind, and vote down their resolutions would the conviction be apparent? Would they be commended for raising a universal yell? Yet according to the witnesses the Platform introduces, this was the fun which the Van Buren men furnished a Whig meeting in Ohio, and which the Platform so admires.

If one of the characteristic and qualities of the new political principles which the Van Buren party propose and which they bring into practice, is that we hear before, before they say that their party will defence give them as much latitude of conduct as may be necessary to secure success, it is time for the people to know it, in which more than any other play

Coming out for Taylor.

The Petersburg, (Va.) Intelligencer publishes letters from two old democrats, declaring their intention to vote for Gen Taylor One is from Robert Harrison of Prince George's county, who has all his life supported the democratic ticket in that State. The author of the other letter is Gen T. J. Green, of Texas. The Intelligencer says

"He will receive in the presence of the case of Pierce and his letter is the age and of the trip. Other expedition to Mexico, especially—Gen Green has been recently with the democratic party, and is believed to have been one of the most democratic, if not the most democratic of the whole Whig—a Gen. Mechanic's Fair at Worcester.

The Worcester County Mechanics Association held its first Industrial Exhibition last week at Worcester, which for the number exhibited and the great skill and ingenuity shown in inventions in new, and improvement on old machinery, and useful articles generally, was probably never surpassed by the first exhibition of any kindred Society—and judging by this Fair, we may safely promise that the future efforts of the Association will place it among the first in the country.

☞ We learn that the noble steamer Admiral will soon arrive here to take her place between this city and Boston, during the remainder of the season, and to run regular trips from the Penobscot river during the winter, thus keeping the connection between the two cities by steam unbroken. The first experiment of this kind was made last winter, by the T. F. Secor, and her success has established the fact of the feasibility of the enterprise and henceforth there will at least, be one steamer upon the route, if not indeed two or three.

A Wise Answer

The Palmyra Courier tells a good anecdote illustrating the view which the friends of Mr Van Buren's course and the course of those who support him. The story runs thus:—A venerable clergyman in an adjoining county, was holding a familiar talk with his Van Buren son in law lately on politics. The young man was urging an entire forgetfulness of Van Buren's past misdeeds, and a refer nce only to his present appointment. 'Suppose a man, after living a life of wickedness, sh uld repent, and seek to be received into your Church—should not you admit him?' he inquired. 'Certainly, was the reply of the clear headed old man, 'certainly if this repentance was a sincere one but until we have such a faith, we wouldn't make a *Bishop of him*'

The Christian Register chronicles the death at Taunton, on the 19th and 20th inst, of Albert and Alfred twin sons of John W and Sarah Jane Matthews. But a few days before their death they were baptised over the coffin of their dead mother, and they were both buried in one coffin, locked in each other's arms and bearing on their heads perennial flowers. The mortal remains of mother and children repose side by side.

Name by Frenchmen. Most of these people do not speak the English language, and do not know how to speak any language, yet they are made to vote, while thousands of reading, intelligent men decline voting, or what is the same thing, vote for men they know stand no chance of being elected. Is this the way to secure a good government, or avert a bad one? Is this the way to make the republican system successful? Nobody thinks of any other system—If it is the one we must abide by and now shall we make the best or the worst of it? Shall we do as politicians just as we do in all other affairs, and so bring about the best result that is practicable? Every man should vote, and vote so that his vote will *tell*—Kennebec Journal.

The Van Burenites of Ohio, nominated Josiah Espy as one of their electors, that gentleman very politely declined serving and says he has taken the proper time, if living and able to get to the polls bestow his suffrage for Zachary Taylor and Millard Fillmore, confidently believing that the honest and the true of the Republic may be safely entrusted to their hands.—Boston Journ.

FOUR DAYS LATER FROM EUROPE.

The steamship Cambria arrived at Boston on Friday. She was telegraphed off the coast, 30 miles distant, at half past seven o'clock, having had a passage of about 12 days, and bringing four days later dates.

We give below the principal items of interest to our readers. It will be seen that a policy of the most severity is contemplated by the British Government towards the Patriots of Ireland, who have fallen into its power, also that the disturbances in politics on the Continent seem to have had the most prejudicial influence on the interests of commerce.

Cotton has a downward tendency.

Money market not materially changed.

IRELAND

It is stated that the event of O'Brien, Meagher or any of the other parties charged with capital offences being found guilty, the extreme sentence of the law would be carried into effect with the least possible delay.

Nothing important has transpired since the sailing of the last steamer.

The hill of Messina before the Neapolitan squadron is confirmed. The place was taken after two days bombardment, and is said to be reduced to ashes.

FRANCE

Considerable excitement continues to prevail in Paris, but as yet there has been no renewal of disturbances. The late elections absorb for the largest share of public attention. Prince Louis Napoleon besides being returned for the capital by an overwhelming majority has also been returned for six other departments.

ENGLAND

Nothing important except that the continental politics continues to exercise a most injurious influence upon the commerce of the country.—Portland Courier.

NEW YORK Oct 5, 10 o'clock P M

Maryland.

The election returns from Maryland are thus far favorable to the Whigs.

The democratic candidate for sheriff has been elected at Baltimore by a majority of 1652 over Kane, democratic loss 1300.

A few returns from Frederick county Maryland are favorable to the Whigs.

Georgia

The election of the Whig candidates in the second and third Congressional districts is rendered almost certain.

In the 5th district, Thomas C. Hackett, and in the 6th Howell Cobb, both Democrats, are chosen. In the 7th and 8th districts Alexander H. Stephens and Robert Toombs, Whigs, are re chosen.

The Elections.

In Georgia and Kentucky, as far as heard from the whigs have made considerable gains. In 19 counties in the former State the whig gain is 474 as compared with the vote 1841. They have also carried two members of Congress if the returns as forwarded by telegraph are correct. In Maryland there is a whig gain thus far in the regular vote.

A Fearful Scene—A Man and a Boat Plunging over the Falls of Niagara

A correspondent of the Buffalo Commercial Advertiser gives a most thrilling description of the struggle of a man to escape the vortex of the Niagara. The letter is dated October 2d, and is as follows:

"At about sunset on last evening a man was carried over the Falls. Who he was is not known. From his management of the sail boat in which he came down the river I think he was not well acquainted with the current of the rapids. His dress and appearance indicated respectability, and a fine pod into the rapids in full possession and extraordinary. His boat was a very good one—decked over on the bow, and I should think would carry three or four tons.

I was on the head of Goat Island when I first discovered the boat—then near half a mile below Navy Island, and near two miles above the Falls. There seemed to be two in the boat. It was directed towards the American shore—the wind being from this shore, and all the sail was standing. A dog well acquainted with the river, I regarded the position of the boat as extra ordinary and hazardous, and watched it with intense anxiety. Soon I discovered the motion to an end, and from the changing direction of the boat, concluded it had but one. We constantly approaching nearer and nearer the rapids. I said discover it was gaining the American shore and by the time it had got near the first fall on the rapids, about half a mile above Goat Island it was directly above the Island. Then it was turned up the river, and to some time the wind kept it nearly stationary. The only hope seemed to be to come directly to Goat Island, and whether I should run half a mile to give alarm or remain to assist, in the event the boat attempted to make the island, was a question of painful doubt. But soon the boat was again turned towards the American shore. Then it was certain it must go down the American rapids.

I ran for the bridge—saw and informed a gentleman and lady just leaving the island, but they seemed unable to reply or move. I called a man at the toll gate—we ran to the spare bridge in time to see the boat just before it got to the first large falls in the rapids. Then I saw but one man—he standing at the stern with his oar, changing the course of the boat down the current, and as it plunged over, he sat down—I was astonished to see the boat rise with the mast and sail standing, and the man again erect, directing the boat towards shore. She became to the next and each successive fall he sat down and then would rise and apply his oar to the intermediate current. Still there was hope that he would come near enough to the pier to jump but in a moment it was gone. And here, that he might jump upon the rock near the bridge, but the current dashed him from it under the bridge bearing the mast. Again he seen on the opposite side. Taking his oar, and pointing his boat towards the main shore, he struck, and I verily jump from the boat. We could no answer, for either seemed certain destruction. Within a few rods of the Falls, the boat struck a rock—turned over and lodged. He appeared to crawl from under it, and swam with the oar in his hand till he went over the precipice.

It has been satisfactory ascertained that the unfortunate man who met his sudden and awful a fate at Niagara Falls, on Sunday afternoon was Richard Lowther of Buffalo. He was a shoemaker by trade, aged about thirty, and left a wife and a family.

☞ Mrs Frances, wife of Rev J. N. Maffit, died in Brooklyn on Friday evening, 29th ult, aged 38 years and 7 months. Mrs M was a lady of much personal beauty, and her pleasing manners and affectionate disposition had secured to her a large circle of warm and admiring friends. The funeral of the deceased, was attended by a very large concourse of people.

The worst of a bad business is a marriage without love, yoking together, but not a union, bindings without a bond, a malpractice of all the burdens of life for both parties, without a mutual life interest, and like the offering of a whole family to false gods, whose demands are never satisfied, because whatever they sacrifice, there is still no atonement. Too many matches are made in confusion—they have no faith in their consequences, and there are, as a abundance of sin. There may be sincerity enough in them, but too often it is sincere selfishness.

A Challenge.

Rev John Pierpont, one of the great apostles of temperance, once said on rising to address an immense congregation of people "If there be any individual, a single one, man woman or child, in this vast assembly who has not suffered either directly or indirectly from intemperance, let that person stand up, that I may at least my eyes on the first one I have ever seen who has ever escaped. He paused and looked around him but no one stirred. An expressive silence confessed that all felt the smart of this universal scourge of the human race.

When a woman loseth her good name she can get it back again. That is precisely the case with a dog made up into sausages, he's gone forever.

Elegant Iron Bedsteads, perfect in requirements to ease and form in every kind, and proud to all changes of climate and are now making rapidly every description of bedsteads made of wood.

MORE EVIDENCE OF THE VIRTUE OF JAYNE'S FAMILY MEDICINES

Dr N J Smith, Wansboro', N. C., says—Some of your *Family Medicines* have reached this part of the country. They seem to do much good, and are eagerly sought after by all who are acquainted with their medicinal virtues. I should be glad to have an Agency for the sale of them, as Child-myself, many requisitions and Physicians in this and will prove of great use to their sale. The *Expectorant* appears to be in the greatest demand here.

Mrs R Wallace Milford, Pa., says—The first six months very little medicine was sold, excepting your Worm Medicine which was called for. I failed in a short time since the *Expectorant* was much called for. I had used one bottle in my family, and found it an excellent medicine for colds. The Sore Stomach we been an unusual number of persons complaining of heavy colds, and the most of them have found relief by using your *Expectorant*.

Mr Thos M Turner, Savannah, Geo. says—We have been very successful in selling your *Alterative* and we have not a few but such—we wish you to send us a dozen by the first vessel.

Messrs Isbury & Laflin, Mount Morris, N.Y. say—We are about out of your *Vermifuge* and *Liver Pills*, and have daily calls for the *Vermifuge* which sells very high in this section. The sales of all your Medicines have been good, and continually increasing.

Ezra Tuttle, Wilmington, Ohio, says—Your *Vermifuge* and *Pills* sell very readily here—I could have sold much more of them if I had them.

E P Steadman, Mayville N.Y., says—I find your *Vermifuge* and *Expectorant* give good satisfaction, and we shall be glad to have a fresh supply.

DR CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by impaired, weakened or unhealthy conditions of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM, in MAY 1841 has been pronounced by distinguished physicians both in Europe and the United States to be the *most valuable* medicinal discovery of the

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened nerves to give life to the various organs and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic,
GOUT, EPILEPSY, LUMBAGO,
DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS Drugs and Medicines *increase the disease* for they weaken the vital energies of the already prostrated system, while under the strength giving, life giving and healing influence of Galvanism as applied by this beautiful and wonderful discovery the entire system is awakened to renewed exertion, health, power health, strength, elasticity, and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *external application* in place of the usual mode of drugging and physicking to the destruction of the already prostrated Nervous System, which makes hopelessly to barren and ruin.

They strengthen the whole system by equalizing the circulation of the blood promote the secretions and never do the slightest injury under any circumstances. Since their introduction in the United States only three years since more than

60,000 Persons

including all ages classes and conditions among which were a large number of ladies whose peculiarly subject to Nervous Complaints have been

ENTIRELY AND PERMANENTLY CURED

when all hope of relief had been given up and every thing else been tried in vain.

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization DYSPEPSIA or any other Chronic or Nervous Disorder. In ordinary cases stimulants are taken, which by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state and with injured faculties after the action has been exerted has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a dispirited sufferer, even in the worst symptoms of an attack and simply to the Belt around the body using the Magnetic Fluid as directed in a short period the inestimable purifying agency will act on the positive element of the Belt, thereby creating a Galvanic circulation which will pass to the organs and thence back again to the positive element keeping up a continuous Galvanic current throughout the system. Thus the worst cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Certificates and Testimonials

From the most Respectable Sources.

Could be given sufficient to fill our columns in this paper. We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrates one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and enlightened reputation—

SUSSEX, New Jersey July 12 1

MR. A. H. CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse nor could I obtain permanent relief from any amount of medical treatment whatever. My physicians were skilful and excellent men, but here their practice was baffled. About *fourteen* years since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe Chronic Rheumatism which for years each year caused me indescribable anguish. In the winter of 1845-46 in consequence of preaching a great deal more than usual, and having to speak in the open air I was attacked by the Bronchitis which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now laid mighty prostrated*, and in my Bronchitis I grew worse so also did my Dyspepsia and Rheumatic affection—these avenging that these disorders were so much connected with each other through the medium of the Nervous System. I was now laid aside from my labors and I had no prospect other than being entirely laid aside from the discharge of these duties and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause I concluded that the *Nervous System* must be reached before any hope could be indulged of my obtaining relief from these distressing maladies. In this whole pharmacopoeia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was urged by friends to examine your invention, and though with no very sanguine hopes of their efficiency I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID. This was in June 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPTIC HEAD ACHE, IN ABOUT HALF A WEEK I FOUND MY NERVOUS SYSTEM RESTORED TO ITS NATURAL TONE. I HAVE OMITTED A SINGLE SERMON ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO STANDS NO TRACE HAS BEEN MANIFESTED. I could fill a sheet of paper with the details of my case, but I can now only furnish this brief abstract. My Dyspepsia has never returned, the Rheumatism has for a while visited me, but not severely and easily arrested, and I confidently believe that from its bold upon my system, and my Bronchial affection is entirely cured. Both is the wonderful and happy result of the experiment.

I have recommended the BELT and FLUID to many I have been likewise employing them in my family with the most delightful effects. They have tried them, with the same happy results, I believe in every case.

I am, dear sir, very respectfully yours,
HOSEA W. LANDIS

☞ Many hundred Certificates from all parts of the country of equally wonderful character could be given.

☞ No trouble or inconvenience attends the use of THE CHRISTIE'S GALVANIC ARTICLES. And they may be worn by the most feeble and delicate without any pain or inconvenience, in many cases the application is attended with the most delightful and agreeable sensations. They can be sent to any part of the country.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we recommend no quackery, we are always pleased to give credit to that which is truly useful, and to give information which may benefit others A few days ago Brother Hibbard of Bangor remaining, as it would be natural that he should have, until he has had further time for acquiring strength of lungs But he is a comfort to his health The following letter which addresses to the general Boston Agent for the medicine on which has restored him so wonderfully will show what medicine has been the instrument of the good work

Boston, Feb 16, 1847

Dr D F Bradley—Sir—I cannot refrain from saying a word to you in connection of the Buchan's Hungarian Balsam of Life It was a plain statement of facts in relation to it, which first induced me to purchase it, and whether I continue it, I shall be thankful

My residence is in Newry Me I here experienced a hard fall from a horse about all which left a cough of the most aggravated kind, accompanied by a severe pain in the left side I had become so feeble that I was obliged to quit all work but was confined to the house until about four weeks since During that time I received the best medical attendance and tried many of all the medicines which are recommended in such cases but could find no relief but grew worse and worse the last three weeks I was confined to my bed Two of my physicians gave me up as past recovery But as Providence would have it I heard of the Hungarian Balsam and immediately procured a bottle This gave immediate relief, and six bottles have broke up my cough and I am now in a state to rest reasonable well advancing health, my usual occupation

BE WISE TO-DAY:

Delay in any case of consumptive tendency is certainly death under all ordinary treatment Buchanan's Hungarian Balsam as a great ANTIDOTE as well as CURATIVE If you have any symptoms above described be advised in time

TO MOTHERS AND MARRIED LADIES

Ladies call and get Sarsaparilla for them expressly prepared as a safeguard for female complaints No female who has a desire to enjoy good health, should neglect this critical period, *The turn of life*, should neglect to take it, as it is a certainty even active for any of the numerous and distressing ailments to which females are subject at this period *This period may be dangerous for several years by using the medicine* Nor is it less valuable to for those who are of a prolific habit, as it is calculated to assist nature by quickening the blood and by gaining the system Indeed this medicine is invaluable for all those delicate diseases to which women are subject

It forces the whole system, renews permanently the natural energies—by removing the impurities of the body and so far strengthens it to produce subsequent relief and cure—which is the cause of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual and sure fo pursuing the system and enlivening the sufferings Heaviness upon child birth, are entirely removed It strengthens both the mother and child, prevents pain and disease, it cleanses and purifies the food—those who have used it think it indispensable It is highly useful both before and after confinement, as it prevents the diseases incident upon childbirth—in Costiveness Cramps, Swelling of the Feet Disordered Stomach Heartburn Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally to use, when applied to the face, were as a spoil act of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin is flamed by the nitrating used in some, constitutes its own perfection in the human face divine as well as in the garden of richest delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the oozing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paints and uses cosmetics and she looked as black, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and octave blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

That is the reason why the southern, and especially the Spanish ladies, are so much admired. Residing in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious cosmetics, if they wish to regain a pleasant flow of blood, buoyant spirits, sparkling eyes and beautiful complexion, they should use Dr Townsend's Sarsaparilla, Thousands who have tried it are more than satisfied, are delighted. Ladies of every station crowd our office daily

M'Alister's All-Healing Ointment.

WHEN this Ointment is worn upon the chest and warmed into the feet it not only acts upon the organs of the chest, but the whole nervous system feels influence It moves along the nerves and thus finds its way to the lungs, liver, stomach and brain imparting increased activity and energy to these organs while it separates and expels from every impurity or humor that may be lodged there, it expels it to the surface Hence the extraordinary expulsion and certainty with which it cures Asthma, coughs and liver complaint Sick headache, agues consumption and spinal diseases

Its first action is to open the pores of the flesh impart tone and nervous energy to the skin and then penetrates to every part of the internal viscera, and expel diseased and impure particles from the system It performs precisely as sickness what nature performs itself in health leaving the full use of every function of the body

It is this power which enables the ointment to sweep off all cutaneous eruptions skin diseases of every nature all to subdue all inflammations fevers and all bowel complaints—in short by keeping the pores of the skin open and restoring health and nervous energy to all the organs of the body

PRIAM OF TROY

AIR TIGHT

COOKING STOVE,

IMPROVED FOR 1848

Combination of the greatest improvements of the age—Four sizes.

THIS Stove commends itself to the attention of Ladies and Gentlemen who are interested in combining *Economy and Convenience* with the duties of Domestic Affairs As all food passes the ordeal of some Cooking Apparatus to make it palatable or proper for use it is very important that every family should possess the best Apparatus for this purpose and which at the same time shall consume the *least amount* of Fuel or incur the *least expense* The

PRIAM OF TROY IN THE STOVE

for it has a very LARGE OVEN probably as large as in any (equal size) Stove, ever offered to the public which is heated quickly and perfectly even by means of **Deep Hollow Grooves**, in the back and bottom of the Oven, exposing from *three to four hundred* square inches more surface to the Oven than can be done by a plain surface Consequently a very Small amount of fuel being arranged in this Air Tight Stove, and applied to the Grate renders it one of the *BEST BAKING OVENS* to be found in New England

There is a Set of large Rims or Rings connected with the Stove so that our Farmers and all who wish to use large Brass or Iron Kettles or any kind of old fashioned Ware, holding from one to ten pails, can do it at their pleasure, The whole Stove is regulated by means of only ONE DAMPER, as *great in appearance* and in fact is one of the *best conveniences for the Kitchen* now in use, as those I and who now have them will testify

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T R. Timbey of Cato N.Y.

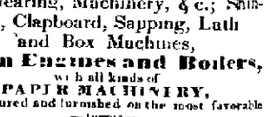
THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested Capital with all other popular

SAW MILL WHEELS

in use at the present time and they can confidently recommend them with the same head at Squarets of water applied as possessing *Greater strength and Speed* and giving a more *steady and Steady Motion* in and out of the cut and therefore not liable to break cranks and will insure *more and Sawn more Lumber* under the same head and than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We could also call the attention of Millowners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

Which are adapted for low falls of water and Mill Dams, and are made of different sizes, to give any amount of power, and from the reputation these Wheels have gained by the successful operation of several built and now in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts now used

As evidence of the merits of this Wheel we would refer to the following extract from a report of experiments made with the same by THOMAS BLAND Esq *Civil Engineer*, —Lowell Mass who is well known as one of the most scientific and experienced practical Engineers in the country

The wheels so formed with curved floats, the number depending upon the size and width of the Wheel each extending so far around the Wheel that when the water arrives at the gates it is ready for expenditure if it falls very nearly perpendicular from the Wheel The Wheel as inclosed in a circular iron curb or frame in which the water stands at its full head, the curb being supported by the stationary floor below and with so little space that it has no power to raise it upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction of the gudgeons and bearing of the Wheel is avoided and as much of the power is used which in the ordinary mode of operation is wholly lost

This Wheel is adapted to low as well as high heads of water and will run as well in tail water as out of it provided the head is sufficient to overcome the friction and the velocity of the wheel is not increased so fast as the back water But no Wheel can fully use a high head of water when it is so low and vice versa for a low head with too much of the width of the gate should be given or the water used so that the water may not be wasted, and not give its best effect to the Wheel

In point of power the Committee above named consider this Wheel superior to the best of the Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless and in many places can be easily accessible when they cannot exist much less in the outlay, is much more profitable and takes very much less room in the building—Simplicity of structure durability of the construction of application and excellence of power are the grand points of recommendation for this Wheel
